# Hail Queen Cube Ice Crusher

Home / HQ-C SPEC / Hail Queen Cube Ice  
Crusher

\*Shown with mobile stand, product  
#4109, sold separately.

The hail queen crushes ice cubes into uniform pebbles from 1/8" to 3/8" in diameter. The mobile stand has two wheels on the back for ease in moving and two pads on the front for stabilization when set in place. The simple, clean styling of the hail queen blends with most restaurant interiors and the small floor space requirement simplifies installation.
