Description & Highlights

EdgeStar 24 Inch Wide Kegerator Conversion Refrigerator for Full Size Kegs

Features:

- Built-In Capable: Fan-forced front ventilation allows this unit to be installed flush with surrounding cabinetry in an under-counter installation or optionally installed as free standing
- Quality Components: The heavy-duty door, professional towel bar handle are both fully wrapped in sturdy and beautiful stainless steel
- Interior Lighting: Soft interior lighting illuminates your keg(s) and makes changing them out quick and easy
- Reversible Door: If it suits your application, you may reverse the door, making the installation more flexible
- Possible Keg Configurations: 1 full size keg, 1 oversize beveled edge keg, 1 quarter keg, 1 slim quarter keg, 1-3 sixth barrel kegs, 1-3 Cornelius kegs, 1 slim quarter + 1 sixth barrel keg, or 1 slim quarter + 1 Cornelius keg
- When empty, it is recommended that you keep the temperature between 35-38°F

Product Technologies:

- **Adjustable Thermostat:** An integrated thermostat lets you choose precisely the setting you need, anywhere from 32° to 60°F for optimal beverage temperatures.
- **Safety Lock:** An integrated safety lock prevents unintentional tampering with your regulator and thermostat.
- **Ready For Conversion:** Specifically designed for kegerator conversion, this refrigerator arrives with a drip tray, stainless steel top cover, guard rail, and four (4) casters.
